

PRICING

& HOW IT WORKS

It is extremely hard to give generalised pricing for floristry. The price of flowers varies massively in each stem type and so the only way to get exact pricing is to build a bespoke quote around you and your day (Quote Information on Pg. 15 & 16.)

Our 2024 minimum spend for florals is £1,000. It's incredibly difficult for you to figure out what your money can get you, of course it is! You have likely never done this before. So for ease we have included example quotes and images from weddings to give you an idea of cost. As well as example quotes, we have also listed starting from pricing for as many items as we can think of. This should help you with your planning and what your budget can get you.

PRICE GUIDE :

Collection
Price: £80 ex VAT

TABLES

& THE COSTS

Centrepieces can be one of the most expensive aspects of your quote. We have therefore put as many types of centrepiece into this document, with overall costs to give you a greater idea of how much these might cost. More tables equals more costs, so it's always a great idea to use your centrepieces in more ways than one. For example, you can use them for additional styling in your ceremony space first if you can, or use your bridesmaids bouquets as part of the centrepieces after the ceremony. Little hints and tricks like these can make your money go much further!

It's also worth noting, that not all of your tables have to be exactly the same. It's nice to mix it up! As long as everything is the same style, this works beautifully and again can be another way of making your money go further. For example, tall floral centrepieces are one of the most expensive centrepieces you can have so dressing x12 tables with this can really add up. A cost saving way, would be to have x2 tables with the tall flowers on and have the other x10 tables with something smaller & more budget friendly. This way you still create the ambiance & wow factor, but for a small proportion of the price!

OVERALL COST:

BOOKING

& HOW IT WORKS

You can reserve your date with us for £250. This is a great option if you are unsure where to start for a quote, or you'd like to secure the date immediately whilst waiting to get your getting a quote. This £250 counts towards your first payment, and again is a non-refundable payment that is redeemable against your wedding date.

We always recommend getting a quote for the items and services you would like to secure. Paying £250 does not secure any items from our hire directory and only guarantees £1000 worth of wedding flowers (our minimum spend). To guarantee a larger amount of floristry and to secure hire items for your date, we strongly recommend requesting a quote and the 50% payment. Due to anticipated demand, we would reccomend securing your date & then requesting a quote. This will ensure you are booked in the dairy whilst you wait for your quote. Quotes will be issued in a first come first served basis.
